Automatic Print

Pay by credit card

[Enter Access Codes...](#)

3. Click **Order** to submit the upgrade. Once the system is done processing your request, you will be taken back to the credit file screen.

Note: Repositories that have already been pulled will not be repulled. When the spouse is added, all repositories pulled on the applicant will be pulled on the Spouse regardless of whether you selected the repository.

What if the "Add Bureaus/Spouse" link is grayed out or not showing at all?

If you do not see the **Add Bureaus/Spouse** link or if it is grayed out (shown below), this means you will not be able to upgrade the file.

You can click the question mark to the right of the text to see why the link is disabled. Below is also a list of possible reasons:

1. The report is over 30 days old.
2. You are not the person who ordered the original report and you don't have rights to order/ upgrade reports for others. Contact your account administrator.
3. The file has already been reissued to Fannie Mae (i.e. Desktop Underwriter) or Freddie Mac (Loan Prospector). Upgrades cannot be done on files already run through automated underwriting.
4. All three repositories have already been ordered.

If you are not sure which of the above is the cause, please contact your account administrator.
